Rutler captures the spirit of the age in which [John Vianney] lived, unveils the sanctity of a humble parish priest, and gets to the heart of what it means to be a priest -- not just then, but now and for all time...a priest for all seasons." -- Kenneth Baker, S.J.

Author Lee shows how Christians today can interpret the meaning of Jesus in a way that is both adequate to their religious experience and yet does not violate Jesus' Jewishness. In this book, Joan Chittister invites us to embrace older age as a natural part of life that is both active and contemplative, productive and reflective, and deeply rewarding. She looks at the many dimensions of aging, the purposes and concerns, struggles and surprises, the potential and joys. Perhaps the most important dimension of older age, Joan illuminates, is to become aware of its profound purpose: These are the capstone years, the time in which a whole new life is in the making again. The gift of these years is not merely being alive, it is the gift of becoming more fully alive than ever.

Klein, Gregory L. & Wolfe, Robert A.

This book proposes a model for exploring and understanding Catholic worship. The model begins with the human experience of persons who come to the church for a variety of reasons and occasions, then proceeds to an examination of the sacraments as we find them rooted in the ministry of Jesus, and finally focuses on the actual rites of the church and some of the pastoral challenges Catholics encounter in their efforts to live the truth that only memory can treasure. All the chapters end with "Questions for Reflection and Discussion." THIS BOOK IS REQUIRED FOR LIMEX.

Contemplative living can lead all of us to be overwhelmed again with the divine light. This book will help us recapture the wonder of God's presence in our lives.

Highlights of Jacob's life -- how he usurped his brother Esau's birthright and blessing, the pillow of stone, the ladder to heaven, wrestling with God -- are set against the heartache and hope of his relationship with the woman he seems destined never to possess. The second problem was that she was supposed to rule along with her younger brother, but they could not get along. They were fighting to see who would rule Egypt. Then Cleopatra met a Roman general who changed her life. His name was Julius Caesar. For a while, Cleopatra dreamed that she and Caesar would rule the world together. #KI4442.1 (KI) 68 Min. M-

Don Johnson, Inc.

Venable, A.

This is a true story. Howard Carter dreamed of going to Egypt from the time he was a boy. He dreamed of searching for ancient treasures in the desert, in the Valley of the Kings. He dreamed of finding the tomb of one of Egypt's ancient kings. After working in Egypt for many years, Howard was told that he should stop looking for tombs in the valley because all of the tombs had already been found and all of them had been robbed. There were no more ancient kings in the valley. But Howard Carter did not believe this. For more than 20 years, he searched in the Valley of the Kings. At last, his money was running out. He only had a few more months to find the golden mummy of King Tut's tomb.

#KI4444.1 (KI) 65 Min. M-

Don Johnston, Inc.

Venable, A.

This book is about the kings and queens who ruled ancient Egypt along the Nile River. These rulers were called the pharaohs. Today many scientists spend their lifetime working on the answers to puzzling questions about Egypt. Why did the pharaohs build the pyramids? How did the workers move those giant stones? Why did Egyptians invent the mummy? Who were the gods of ancient Egypt and why did one pharaoh try to get rid of all of them except one? What do those strange pictures called hieroglyphics mean? This book will unlock the answers to many of those questions.

Young Queen Cleopatra of Egypt had two problems. The first problem was that Egypt was rich, and there were powerful men from Rome who wanted to get their hands on these riches. The second problem was that she was supposed to rule along with her younger brother, but they could not get along. They were fighting to see who would rule Egypt. Then Cleopatra met a Roman general who changed her life. His name was Julius Caesar. For a while, Cleopatra dreamed that she and Caesar would rule the world together. Then Caesar was killed, and Cleopatra's dream never came true. Soon another dream took its place. Julius Caesar was dead, but Cleopatra had found another great Roman general. Together, they would rule or die!

Venable, Alan

This is a true story. Howard Carter dreamed of going to Egypt from the time he was a boy. He dreamed of searching for ancient treasures in the desert, in the Valley of the Kings. He dreamed of finding the tomb of one of Egypt's ancient kings. After working in Egypt for many years, Howard was told that he should stop looking for tombs in the valley because all of the tombs had already been found and all of them had been robbed. There were no more ancient kings in the valley. But Howard Carter did not believe this. For more than 20 years he searched in the Valley of the Kings. At last, his money was running out. He only had a few more months to find the golden mummy of King Tut's tomb.

This book is about the kings and queens who ruled ancient Egypt along the Nile River. These rulers were called the pharaohs. Today many scientists spend their lifetime working on the answers to puzzling questions about Egypt. Why did the pharaohs build the pyramids? How did the workers move those giant stones? Why did Egyptians invent the mummy? Who were the gods of ancient Egypt and why did one pharaoh try to get rid of all of them except one? What do those strange pictures called hieroglyphics mean? This book will unlock the answers to many of those questions.
