

**Q1: What is the name of one best practice for evangelization you currently implement at your parish?**

Carenote parking lot distribution

**Q2: Please include below a description of your best practice. (Include any relevant details.)**

While parents are parked (illegally) in our lot next to Fairdale H.S. from about 2 pm till kids are released about 2:30 pm, they have little to do in their vehicles. In clerical attire I visited with each vehicle and offered them free "care notes" that we had left over from previous distributions. Since the folks thought I was going to give them trouble, the fact that I brought them something they were interested in was a double bonus.

**Q3: How does this best practice contribute to your evangelization efforts?**

The distributed material was something the folks personally chose (only 1 or 2 didn't want anything) and the others got Catholic-inspired but general literature (eg: handling grief through the holidays, etc.) and started reading it right away. "Planting Seeds"
