

ADDITION TO THE SUMMER PROFESSIONAL LEARNING CATALOGUE

WE Schools: Orientation Session

Focus: Service Learning

WE Schools is a unique service learning program that provides framework for student-led projects that make local and global impact. This session is for any educator or administrator who wants to learn more about WE Schools and WE Day Kentucky. We will dig into the Tool-Kit and examine what service-learning looks like across various implementation models (integrated in the classroom, advisories/homerooms, or within an existing or new extra-curricular club). Finally, we will explore all of the offerings within WE Schools that are free to educators throughout the upcoming school-year.

Educators will walk away with a clear understanding of all of the program, opportunities, and next steps for service learning at their schools.

June 3

1:00 – 3:00

Pastoral Center – Room A
